BASILEUS' CORNER

Welcome to another year of sisterhood and growth! Thank you for being so enthusiastic during our retreat themed "Going Wild for NSPDK." We look forward to impacting our communities and engaging with Lakeview Elementary through our Y.E.S. Program.

Please join us in welcoming our new Sorors: Dawn Campbell, Jennifer Lee, and Ashley Winfield. Their dedication will enrich our organization. Thank you for your continued support!

Basileus Marjorie McDaniel

Educators' Corner

What Is AI and How Does It Fit in Today's Classroom?

Artificial Intelligence (AI) simulates human intelligence in machines, enabling them to think, learn, and act independently. Key areas include machine learning, natural language processing, and computer vision.

In modern classrooms, AI enhances teaching and learning by personalizing education to meet each student's needs, ensuring an appropriate level of challenge and support. It also streamlines administrative tasks like grading, allowing teachers to focus more on student engagement.

AI-driven platforms provide real-time feedback and adaptive learning paths, keeping students motivated. Additionally, interactive resources, such as virtual simulations and gamified lessons, make complex subjects engaging and accessible.

By leveraging AI's potential, educators create efficient, inclusive, and dynamic learning environments that promote deeper understanding and enthusiasm for learning.
